NON - DAIRY

Non-dairy creamer is one of the base components for milk teas and smoothies. We provide Grade A quality (code: 50 N) non-dairy creamer that is cold water-soluble and leaves your drink creamy and rich. It's popular non-dairy aspect makes it safe for vegans, vegetarians and lactose intolerant consumers.

SWEETNER

The Boston Coolers sugar syrup is specially formulated to save time on making and storing sugar syrup. We recommend 15-25 ml per serving of bubble tea depending on customer preferences and serving size. We package our syrup in 25kg barrels as this sweetener is used with every milk tea and smoothie!

TOPPINGS

Popping Boba | Tapioca Pearls |
Jellies | Trending Topping

TAPIOCA PEARLS

Tapioca Pearls is the most popular sinker for Bubbletea and often mistakenly confused for where this frothy drink gets its name from. Tapioca pearls are made from starch extracted from the Cassava root that transform into the chewy iconic balls. Boston Coolers only carries Grade A quality pearls that provide consistency in texture, flavor and size. These pearls can be served with all Bubbletea drinks and are sure to be a hit with your customers!

Tapioca Pearls

POPPING BOBA

Popping boba are a new fun addition to the bubble tea scene that's taking the industry by storm. Popping boba are vegan-friendly sinkers that use agar agar to create “juice caviar”. Our high-grade popping boba are tapioca-sized spheres, that are filled with real fruit juices. These can even be used as innovative additions across your menu as toppings for ice creams and cakes!

JELLY

Another popular sinker are flavored jellies. These are pre made jellies that require no cooking. There is fruit jelly that are precut into small pieces and have a bite, and Nata De Coco jellies that are larger and longer with a softer bite. Our Grade A quality jellies can be served with a variety of BubbleTea drinks that are matched for flavor.
